

Price list for trapezoidal galvanized cable trays

AI Overview

The price of trapezoidal galvanized cable trays varies widely depending on size, finish, and quantity, typically ranging from \$15 to \$50 per meter for standard options, with custom orders requiring a formal quotation.

Price Overview

Trapezoidal galvanized cable trays are available in electro-galvanized, hot-dip galvanized, and powder-coated finishes, which influence the cost. Standard sizes, such as 150mm width by 100mm height, generally fall within \$15–\$50 per meter, depending on the supplier and regional market. Bulk orders or larger dimensions may reduce the per-meter cost, while specialized coatings or custom lengths can increase it.

Factors Affecting Price

- Material and Finish:** Hot-dip galvanized trays are more corrosion-resistant and slightly more expensive than electro-galvanized options.
- Dimensions:** Width, height, and length directly impact material usage and cost. Larger trays or thicker gauges increase the price.
- Quantity:** Suppliers often offer discounts for bulk purchases, especially for industrial or commercial projects.
- Customization:** Custom sizes, bends, or accessories (like couplers, tees, and risers) require a formal quotation from the manufacturer.
- Shipping and Location:** International shipping or delivery to remote locations can add to the total cost.

How to Obtain Accurate Pricing

Since trapezoidal cable trays are customizable products, suppliers typically require the following to provide a formal quotation:

- Exact dimensions (width, height, length)
- Quantity required
- Preferred finish (electro-galvanized, hot-dip galvanized, powder-coated)
- Any accessories or installation requirements

Suppliers like Alibaba and Direct Channel UK offer tailored quotes once these details are provided. For European or UK buyers, local distributors may provide next-day delivery and pre-galvanized options, which can help reduce lead time and shipping costs.
