

Price of 48-core fiber optic cable for smart buildings in Paraguay

AI Overview

The price of 48-core fiber optic cable typically ranges from \$1 to \$6 per foot (\$3.28 to \$19.68 per meter), depending on type, jacket, and installation requirements. Estimated Pricing For 48-core fiber optic cables, the cost varies based on fiber type, jacket material, and whether the cable is armored or indoor-rated: Single-mode fiber: \$0.30 to \$1.00 per foot for standard indoor/outdoor cables, with higher-end armored or OPGW types costing up to \$6 per foot (\$1 to \$6 per foot, or \$3.28 to \$19.68 per meter). Multimode fiber: Slightly higher per foot than single-mode for high-performance applications, typically \$0.50 to \$1.50 per foot. Armored or OPGW cables: Designed for outdoor, high-strength, or smart grid applications, prices can range from \$5 to \$20 per meter depending on construction, fiber brand, and environmental specifications. Factors Affecting Price Cable Type: Single-mode (G.652D, G.655) is cheaper per meter than multimode for long-distance transmission. Jacket Material: PE, LSZH, or plenum-rated jackets affect cost; LSZH and plenum-rated cables are more expensive due to fire safety compliance. Installation Environment: Indoor riser-rated cables are cheaper than armored or direct-burial cables. OPGW cables for overhead power lines are at the higher end. Supplier and Shipping: International suppliers like Alibaba, Huadong Cable Group, and Hongan Group offer 48-core cables with customizable options; shipping to Paraguay may add 10–20% to the base cost. Practical Considerations for Smart Buildings Indoor Backbone: For smart building networks, indoor-rated 48-core cables with LSZH jackets are recommended for safety and compliance. Outdoor Connectivity: If connecting multiple buildings or integrating with utility lines, armored or OPGW 48-core cables provide durability and lightning protection. Bulk Purchase: Buying in...
