# Price of Metal Optical Cable

## AI Overview

Metal optical cable prices vary by metal type, market rates, and manufacturer, with copper and aluminum being the primary metals used.Metal Component PricesThe cost of metal optical cables is largely influenced by the current market prices of copper and aluminum:Copper: Prices are updated daily according to the London Metal Exchange (LME) and Deutsches Elektrolytkupfer (DEL) markets. Copper prices fluctuate based on global demand, supply, and currency exchange rates .Aluminum: Similarly, aluminum prices are tracked on LME and DEL markets, with daily updates and historical trends available for analysis . Web platforms like Westmetall and Top Cable Metal Prices provide real-time and historical metal prices, allowing users to calculate approximate cable costs based on metal content .Manufacturer Price ListsLeading cable manufacturers, such as Prysmian, provide official price lists for optical fiber cables, including metal-reinforced types. These lists are often region-specific and include:Telecom and data transmission cablesIndustrial and construction-grade optical cablesSubmarine and high-voltage optical fiber cables Prysmian's price lists are available for regions including Asia Pacific, Middle East, India, Africa, and Latin America, and can be downloaded from their official website . Prices are typically quoted per meter or per kilometer, depending on cable type and specifications.Stock Market ReferencesFor companies producing metal optical cables, stock market listings on platforms like NSE or ET Money provide insights into company performance, which can indirectly reflect pricing trends in the cables sector . While these do not provide direct product prices, they are useful for market analysis.How to Access Updated PricesCheck metal prices: Use Top Cable Metal Prices or Westmetall to get daily copper and aluminum rates .Download manufacturer price lists: Visit Prysmian's official document center to access the latest optical cable prices by region .Calculate cable cost: Multiply the metal content per meter of cable by the current...
