

Price of Smart Cabinet M-Type Cable Management Frame

AI Overview

The price of a Smart Cabinet M-Type Cable Management Frame typically ranges from \$150 to \$400 per unit, depending on size, configuration, and supplier. Pricing Overview Smart Cabinet M-Type cable management frames are specialized accessories for server racks and data center cabinets. Prices vary based on factors such as:

- Height and size:** Standard vertical frames (e.g., 42U, 45U, 48U) generally cost more for taller units.
- Material and build quality:** Steel or aluminum frames with tool-less installation and finger duct covers are priced higher.
- Customization:** OEM or ODM options, such as color, cable routing features, or additional covers, can increase the cost.
- Supplier and region:** Prices differ between manufacturers and distributors, and shipping costs may apply.

How to Obtain an Exact Price

Manufacturer Websites: Companies like Panduit, CommScope, Belden, and AZE Systems provide product catalogs and allow you to request quotes online.

Instant Quote Tools: Some suppliers, such as nVent HOFFMAN, offer instant quote generation for cable management products.

Direct Contact: Contacting sales representatives or distributors ensures you get pricing for your specific configuration, including shipping and bulk discounts.

Additional Considerations

- Warranty and Support:** Check if the frame comes with a warranty or technical support.
- Compatibility:** Ensure the frame fits your existing rack or cabinet system.
- Bulk Orders:** Ordering multiple units may reduce the per-unit cost.

For the most accurate and up-to-date pricing, it is recommended to request a quote directly from the manufacturer or authorized distributor. This ensures you receive pricing tailored to your configuration, quantity, and location.
