

Price of Special Angle Bends for Cable Trays

AI Overview

The price of special angle bends for cable trays varies widely depending on material, size, and load capacity, typically ranging from \$10 to \$150 per piece.

Material and Price Considerations

- Mild Steel Painted Angle Bends:** These are cost-effective and suitable for indoor use with low to medium loads. Prices are generally on the lower end, around \$10–\$30 per bend due to the affordable material and simple corrosion protection ().
- Aluminum Angle Bends:** Lightweight and corrosion-resistant, ideal for small loads and outdoor applications. Prices are slightly higher, typically \$20–\$50 per bend, reflecting the material cost and ease of installation ().
- Stainless Steel Angle Bends:** Highly durable and corrosion-resistant, suitable for marine, chemical, or high-moisture environments. These premium bends can cost \$50–\$150 per piece, depending on size and thickness ().
- Hot-Dip Galvanized Steel Bends:** Designed for heavy loads and outdoor use, offering long-term corrosion protection. Prices usually range from \$30–\$100 per bend, depending on dimensions and load capacity ().

Types of Angle Bends

- Horizontal Bends:** Used to change the cable tray direction horizontally.
- Vertical Bends (Inside/Outside):** Allow vertical routing of cables.
- Reducers, Cross Bends, and Tees:** Specialized bends for complex routing or connecting multiple trays ().

Supplier and Customization Factors

Prices can vary based on supplier, order quantity, and customization. Many manufacturers offer custom fabrication to meet specific project requirements, which may increase the cost. Suppliers in India and globally provide options for bulk orders, with discounts for larger quantities ().

Summary

The cost of special angle bends for cable trays depends on material, size, load capacity, and environmental resistance. For budget-conscious projects, mild steel or aluminum bends are suitable, while stainless steel or galvanized steel bend...
