

Price of electrical box cable tray tee

AI Overview

Electrical box cable tray tees in Hong Kong typically range from HK\$50 to HK\$200 per piece, depending on material, size, and supplier. Pricing Overview Cable tray tees are fittings used to branch or connect cable trays in electrical installations. Prices vary based on:

- Material:** Galvanized steel is cost-effective for indoor use, while stainless steel or aluminum is more expensive but offers higher corrosion resistance.
- Size and Load Capacity:** Larger tees or those designed for heavy-duty applications cost more.
- Supplier and Quantity:** Bulk purchases often reduce the per-piece cost, while small orders may be priced higher.

For example, hot-dip galvanized ladder-type cable tray fittings, including tees, are generally priced per piece, with standard lengths of 2.4 meters for the main tray sections. Specialized suppliers in Hong Kong, such as Hongfeng Electric or Baozun Industry, offer competitive pricing for bulk or fire-rated applications.

Additional Considerations

- Compliance:** Ensure the fitting meets relevant standards (BS EN 61537, NEMA VE 1, ASTM) for safety and performance.
- Installation and Maintenance:** Higher-quality materials may have a higher upfront cost but reduce long-term maintenance and replacement expenses.
- Accessories:** Some suppliers provide integrated accessories like supports, bends, and tees, which can affect overall project cost.

In summary, when budgeting for a cable tray tee, expect HK\$50–HK\$200 per piece, with the final price influenced by material, size, and supplier. For precise quotes, contacting local distributors such as RS Hong Kong or Kam Tai Products is recommended.
