

Price of fiber optic cable removal

AI Overview

Fiber optic cable removal costs depend on cable type, installation method, labor, and disposal or recycling services, typically ranging from \$1 to \$6 per foot for materials and additional labor for decommissioning.

Key Factors Affecting Removal Costs

- Cable Type and Construction:** Single-mode vs multimode fiber, armored vs non-armored, and indoor vs outdoor cables influence removal complexity and cost. Armored or direct-buried cables require specialized equipment and safety procedures, increasing labor costs.
- Installation Environment:** Aerial, in-conduit, or underground placement affects accessibility and removal difficulty. Urban areas may incur higher labor and permit costs compared to suburban or rural locations.
- Labor and Technical Services:** Skilled technicians are needed for splicing, circuit rerouting, and safe cable extraction. Labor rates vary by region and project complexity, typically \$1–\$3 per foot for standard removal.
- Disposal and Recycling:** Many providers offer recycling services for copper or fiber components, which can offset costs. Proper disposal of fiber optic materials ensures compliance with environmental regulations.

Typical Cost Estimates

- Small-scale indoor removal (1,000 ft):** \$2,500–\$3,500 including labor and basic disposal.
- Medium-scale outdoor removal (2,000 ft, conduit):** \$5,000–\$6,500 depending on splicing and access.
- Large-scale or armored cable removal (5,000 ft, multiple splices):** \$11,000–\$15,000 including professional testing and recycling.

Service Providers Companies like TelCycle specialize in fiber optic cable decommissioning, offering:

- Removal of aerial, direct-buried, and in-conduit cables without network disruption
- End-to-end network consolidation and decommissioning
- Copper and fiber recycling with brokerage and logistics support

Recommendations for Quotation Provide cable details: length, type, installation method, and location. Specify additional services: splicing, testing, or recycling. Request itemized quotes: separate labor, materials, permits, and disposal costs. Consider regional factors: urban vs rur...
