

Price of relocated secondary distribution box

Overview

Relocating an electrical panel costs between \$1,500 and \$3,500, with the type of panel and relocation distance determining your final total. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. Many homeowners consider moving their breaker box for reasons such as home renovations, converting unfinished spaces, or addressing. Buyers typically pay for a full panel replacement, including labor, materials, and permits. Repairing or upgrading your panel will increase the final cost. A circuit breaker box distributes power to multiple electrical circuits throughout.
