

Price of vertical wall mounting for cable trays

AI Overview

Vertical wall mounting brackets for cable trays typically range from \$10 to \$50 per bracket, depending on size, material, and load capacity. Overview Vertical wall brackets are essential for securely mounting cable trays to walls, ensuring stability and compliance with standards like EN 61537. They are commonly used in industrial, commercial, and data center installations to support power, data, and control cables. Brackets are available in various types, including cantilever, L-type, V-type, and reinforced brackets, and are made from materials such as zinc-plated steel, hot-dip galvanized steel, or chrome-finished steel for corrosion resistance. Price Factors Material and Finish: Hot-dip galvanized or electro-zinc coated brackets are more expensive than standard steel due to enhanced corrosion resistance. Bracket Type and Size: Reinforced or V-type brackets designed for heavy loads cost more than standard L-type or cantilever brackets. Load Capacity: Brackets rated for higher cable loads or longer spans generally have higher prices. Supplier and Brand: Prices vary between suppliers like McMaster-Carr, Amazon, RS Components, and Graybar, and may include shipping or bulk discounts. Typical Price Range Light-duty brackets: \$10-\$20 per piece Medium-duty brackets: \$20-\$35 per piece Heavy-duty or reinforced brackets: \$35-\$50 per piece For large installations, purchasing in bulk may reduce the per-unit cost. Some suppliers also offer complete wall-mount kits including brackets, fasteners, and supports, which can range higher depending on the number of components. Recommendations Measure the span and load requirements of your cable trays to select the appropriate bracket type. Consider corrosion-resistant finishes for long-term durability, especially in industrial or outdoor environments. Check supplier websites for exact pricing and availability, as some re...
