

Price quote for Intelligent Cold Aisle IK10

AI Overview

Prices for an Intelligent Cold Aisle IK10 system start from approximately £1900 per room (VAT excluded). The Intelligent Cold Aisle IK10 is a modular containment solution designed to improve cooling efficiency in data centers by separating hot and cold air. It typically includes ceiling panels, doors, and baffles to maintain proper airflow and reduce energy costs. The system is compatible with standard server racks and can be customized to fit different aisle lengths and heights.

Key Features

- Cabinet-supported ceiling panels for easy installation over cold aisles.
- Automatic closing doors to maintain containment and reduce recovery time.
- Translucent or transparent panels to allow light into the aisle.
- Durable, maintenance-free construction for long-term use.
- Optional filler panels for shorter cabinets or custom configurations.

Pricing Considerations

The base price starts at £1900 per room, VAT excluded. Final cost may vary depending on room size, aisle length, ceiling height, and optional accessories. Installation services may be additional, depending on the provider and location. For a precise quote tailored to your data center layout and requirements, it is recommended to contact the manufacturer or authorized distributor directly, providing details such as aisle dimensions, rack types, and any special customization needs.
