

Price requirements for indoor distribution boxes

2. Imported design is convenient for expansion.

The design of two inlets saves space and allows for rear line entry.

AI Overview

Indoor distribution boxes typically range from \$10 for small plastic residential units to \$200 or more for industrial-grade steel enclosures, depending on material, capacity, and features.

Factors Affecting Price

- Material of the Enclosure**
 - Plastic:** Lightweight, corrosion-resistant, commonly used in residential or light commercial settings; prices range from \$10 to \$25 for small units.
 - Steel:** Offers higher mechanical strength and durability, suitable for industrial or commercial use; prices typically start around \$40 and can increase significantly with higher-grade steel or powder coating.
 - Aluminum Alloy:** Lightweight and corrosion-resistant, often more expensive than steel or plastic.
- Protection Rating (IP Rating)**

Indoor boxes generally require lower IP ratings than outdoor units. Higher protection grades (e.g., IP65 for dust and water resistance) increase the cost.
- Internal Components**

Empty enclosures are cheaper; adding circuit breakers, busbars, surge protectors, or smart monitoring systems increases the price. Advanced features like intelligent management or remote monitoring can make units significantly more expensive.
- Type and Application**
 - Residential distribution boxes:** Small, simple, and affordable.
 - Commercial or industrial boxes:** Larger, more robust, and capable of handling higher loads; prices are higher due to durability and capacity requirements.
 - Smart or intelligent boxes:** Integrated with monitoring and control functions, commanding premium prices.
- Brand and Quality**

Well-known brands like Schneider Electric, Siemens, ABB, and Chint Electric offer higher reliability and after-sales support, which increases cost. Lesser-known brands may be cheaper but could compromise on quality and durability.

Typical Price Ranges for Indoor Units

- Small plastic residential boxes: \$10–\$25
- Steel boxes for light commercial use: \$40–\$100
- Industrial-grade steel or intelligent boxes: \$150–\$500+ d...
