

Prices of cable trays in Lebanon

AI Overview

Cable tray prices in Lebanon typically range from \$10 to \$50 per meter, depending on material, type, and finish. Price Overview The cost of cable trays in Lebanon varies based on material, design, and supplier: Steel Wiremesh Cable Trays: These are widely used for flexibility and ventilation. Prices generally range from \$15 to \$40 per meter, depending on the finish (galvanized, stainless steel, or coated) and load capacity. Suppliers like Legrand Lebanon offer various finishes and accessories for efficient installation. PVC Cable Trays: Lightweight and corrosion-resistant, PVC trays are more budget-friendly, typically costing \$10 to \$25 per meter. They are suitable for indoor and outdoor applications where chemical or moisture resistance is needed. Ladder and Perforated Trays: Ladder trays, often made of steel or aluminum, can cost \$20 to \$50 per meter, depending on width, thickness, and load rating. Perforated trays fall in a similar range and are used for medium-duty installations. Factors Affecting Cost Material: Stainless steel is more expensive than galvanized steel or PVC. Tray Width and Depth: Larger trays that carry more cables cost more. Finish and Coating: Corrosion-resistant coatings or special finishes increase the price. Accessories: Bends, junctions, supports, and fasteners add to the total cost. Supplier and Brand: International brands like Legrand may be priced higher than local manufacturers. Purchasing Tips Request quotes from multiple suppliers such as Metas Lebanon, SFSP Lebanon, and local PVC tray manufacturers to compare prices and availability. Consider bulk orders, which often reduce the per-meter cost. Verify compliance with local and international standards (BS EN, NEMA, IEC) to ensure safety and durability. By considering these factors, you can select a cable tray solution that balances cost, durability, and installation efficiency for your project in Lebanon.
