

Raw material prices rise in the optical cable industry

Overview

Industry reports indicate that average contract prices for standard single-mode bare fiber (G. Key indicators of today's market: Lead times have extended from 4-6 weeks to 12-20 weeks. D) have risen by 40-60% since Q1 2025, with spot market prices doubling in some. Since early 2026, the fiber optic cable price has been rising at an extraordinary pace. High fiber optic cable prices may threaten the financial feasibility of information communication technology (ICT). The global fiber optic industry is entering a new pricing cycle. For distributors, telecom. In the latest Optical Fibre and Cable Market Outlook, CRU examines the recent acceleration in fibre pricing and the tightening supply conditions emerging in early 2026. After an extended period of subdued pricing in several regions, optical fibre prices are rising sharply alongside sustained demand. With the cost of raw materials climbing, many procurement managers are asking: Should we wait for prices to drop, or is a massive surge in order volume imminent?

At Shandong Yibo Optronics, with 13 years of manufacturing expertise, we analyze why the market is moving from "hesitation" to "urgent."
