

Syrian optical distribution box 24 cores

Overview

The 24 ports optical fiber cable distribution box is capable of housing 24 sc or 12 lc duplex adapters, supporting max 24 cores termination. It can accommodate two incoming cables and 24 drop cable, and we can use this box to give protection for the fiber cable in indoor. The 24 port fiber optic distribution box provides a protected termination point for feeder cable to connect with drop cable in FTTH and FTTx communication networks. com, of which fiber optic equipment accounts for 92%, communication cables accounts for 4%. A wide variety of 24 cores distribution box fiber optic options are available to you, such as wifi, wireless. Fiber distribution box is suitable for the wiring connection of optical cable and optical communication equipment, through the adapter in the wiring box, the optical jumper leads the optical signal, and realizes the optical wiring function. OTRANS strives to provide you with professional, reliable. The cable entries (inlets) are loaded with PG16 IP68 rated gland to protect the optical cables and transmission performance. It is widely used in residential buildings, business centers, and villas, providing an efficient solution for last-mile fiber distribution.
