

TS8 Distribution Box

Overview

The Rittal TS 8 is the global standard baying floor-standing enclosure system for industrial control cabinets, motor control centres and power distribution switchgear. The modular design allows for efficient system updates, flexible baying options and virtually endless configurations, all based on a robust 16-fold tubular frame system. The frame can hold weight loads up to 1,500 lb. on the mounting panel and features multi-level mounting capability for unsurpassed. our project may require. With dozens of enclosures and hundreds of accessories, Rittal can turn your project around quickly, and if modifications are needed our team of specialists is ready to design the custom changes and order placement process. Includes handle interlocking kit (8611). Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale.
