

Terminal Box 12-Chip FC

Overview

This 12-core rack-mounted fiber terminal box supports 24/48-port configurations and is compatible with multiple interface types, including sc, fc, and lc. It comes fully equipped with pigtailed for easy and efficient installation. It is suitable for data centers, enterprise. Fiber optic terminal box is a fiber management product for fiber link distribution and protection in FTTH network. Suitable for distribution and termination of various fiber optic systems. Use modern technologies to improve connection for flawless communication. These units are available in sizes that fit the. Material: Cold-rolled steel, with excellent electrostatic painting. Is a subsidiary of Huizhou YHT Broadband Equipment Co.
