

UK cable tray type

Overview

In this guide, I'll explain how I choose the right cable tray for a project in the UK, the different types available, and when to use systems like Strut Channel, Cable Trays & Trunking, Metal Trunking, Cable Ladder, and Cable Basket. Here in the UK, standard widths run from a slim 50mm for a handful of data runs right up to 900mm or more for the heavy-duty. These cable trays are designed to hold and support various types of cables, including power cables, data cables, and communication cables. What are the types of cable trays?

Ladder Cable Tray: Ladder cable trays have a ladder-like design with horizontal side rails connected by rungs. Learn about ladder, perforated, solid-bottom, wire mesh, and channel trays in this complete guide.
