

# What is a cable tray angle adjustment piece

## Overview

The flexible horizontal adjustable splice plates are designed to allow for horizontal direction changes when standard horizontal fittings do not conform. Bonding jumpers are not required. A cable support system consists of cable support lengths and system components, such as cable support fittings, support elements, mounting elements and system accessories. By adjusting the rod height, the cable tray can be positioned at different heights and angles to fit the specific installation. Discover a comprehensive range of high-quality cable trays and cable ladders at ekabel24. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned in this technical guide only apply to our own cable management ranges and cannot under any circumstances be transposed to silicone, overheating or.
