

Where are Huijue fiber optic coupler manufacturers located

AI Overview

Huijue fiber optic couplers are primarily manufactured in Shanghai and Jiangsu Hai'an, China. Manufacturing and Production Bases Huijue Network Communication Equipment Co., Ltd., the parent company, has its headquarters and technology R&D center in Shanghai, where it focuses on research, development, and innovation of optical communication products, including fiber optic couplers. The company also operates a large-scale production facility in the Jiangsu Hai'an National Economic Development Zone, which serves as the main manufacturing base for optical fiber connectors, PLC splitters, and couplers. This facility is equipped with automatic and semi-automatic production and testing equipment, ensuring high-quality and consistent output.

Product Range and Export The Shanghai and Hai'an facilities produce a wide range of optical components, including fiber optic couplers, planar waveguide splitters, fused couplers, and PLC splitters. Huijue's products are exported to Europe, North America, Southeast Asia, and other international markets, demonstrating the company's global manufacturing and distribution capabilities.

Summary Shanghai, China: Headquarters, R&D center, and initial production plant. Jiangsu Hai'an, China: Main manufacturing base for fiber optic couplers and related optical components. Global Reach: Products exported to multiple continents, including Europe, North America, and Southeast Asia. These locations highlight Huijue's integrated approach, combining research, development, and large-scale production to supply high-quality fiber optic couplers both domestically and internationally.
