

Where can I find galvanized cable trays in Mauritius

AI Overview

Galvanized cable trays in Mauritius are available from suppliers like Brikonek, Quincaillerie A1, and MRC Wire Products, offering hot-dip galvanized steel options suitable for industrial and construction projects.

Key Suppliers

1. **Brikonek** Brikonek offers hot-dip galvanized perforated cable trays made from steel plates, treated for enhanced corrosion resistance and durability. These trays are suitable for control cables, communication cables, and power cable installations, providing good heat dissipation and dust protection. They are widely used in real estate, chemical, electricity, oil, and telecommunications sectors in Mauritius (Brikonek.mu) .
2. **Quincaillerie A1** Quincaillerie A1 supplies MET hot-dip galvanized cable trays in standard lengths (e.g., 2.5 meters). Their products are priced competitively and cater to both commercial and industrial applications, ensuring compliance with corrosion protection requirements in Mauritius' humid coastal climate (Quincailleriea1.com) .
3. **MRC Wire Products Ltd** MRC Wire Products, part of the Desbro Group, has been operating in Mauritius since 1975. They provide a range of cable trays, including galvanized options, and are known for their reliability and local technical support. Their offerings are suitable for large-scale infrastructure and industrial projects (MRCmesh.mu) .

Market Overview The Mauritian cable tray market is growing due to infrastructure development, industrial expansion, and renewable energy projects. Hot-dip galvanized steel is preferred for its corrosion resistance, especially in coastal areas. Modular and pre-fabricated systems are increasingly popular for faster installation. Key considerations when selecting a supplier include load capacity, tray dimensions, material type, compliance with IEC 61537 and local electrical codes, and after-sales support (Accio.com) .
