

Which low-voltage busbar manufacturer is good in the UAE

AI Overview

Delta Electric (FZE) is widely recognized as a leading UAE manufacturer of high-quality low-voltage busbars, offering certified, locally produced solutions. Delta Electric (FZE) Delta Electric, based in Sharjah, is the first UAE-made brand of low-voltage and medium-voltage busway systems, known as DELTABAR®. Their products feature copper and aluminum conductors enclosed in extruded aluminum with advanced cooling systems. DELTABAR® systems are certified by DECRA, Netherlands, and tested for thermal withstandability up to 185°C for three hours, complying with IEC 85 and UL 1446 standards. Delta Electric specializes in sandwich busbar trunking and cast resin metal-enclosed systems, making it a top choice for reliable, high-performance low-voltage distribution in the UAE and GCC region.

Wilmar Busways Wilmar International LLC, located in Abu Dhabi, offers sandwich busway systems ranging from 630A to 6300A with copper conductors. Their systems are rated IP54 to IP67 and suitable for commercial, residential, and industrial applications. Wilmar emphasizes energy efficiency, low losses, and robust safety features, including expansion joints for thermal expansion and fire protection. They provide both indoor and outdoor solutions with high ingress protection, making them a strong competitor in the UAE market.

Precision Electricals Precision Electricals, headquartered in Dubai, is a leading distributor and manufacturer of electrical switchgear and busbar systems. They focus on custom solutions tailored to project-specific requirements, ensuring high-quality workmanship and compliance with industry standards. Their extensive portfolio includes low-voltage busbars, enclosures, and control gear, supported by a strong regional distribution network across the UAE and Middle East.
