

Which manufacturers produce optical cables in South Sudan

AI Overview

Bayobab (MTN Group subsidiary) and IPTEC Limited are the main providers of fiber optic infrastructure in South Sudan, though local manufacturing of optical cables is not currently reported. Key Providers Bayobab is a wholesale fiber optic subsidiary of the pan-African communications giant MTN Group. The company has announced plans to build a fiber optic cable network across South Sudan to enhance digital infrastructure and provide affordable, reliable internet access. Bayobab has a proprietary terrestrial fiber network spanning 114,000 km, with plans to extend it to 135,000 km by 2025, and operates across multiple African countries, positioning itself as a leading open-access digital infrastructure platform. The company recently acquired fiber assets from MTN Zambia and is part of the 2Africa submarine cable consortium, which strengthens its regional connectivity. IPTEC Limited delivers high-speed fiber optic internet services in South Sudan, including FTTH (Fiber to the Home) and FTTP (Fiber to the Premises) solutions for residential, enterprise, and institutional clients. Their network provides ultra-fast, low-latency, and interference-free connectivity, supporting applications such as cloud computing, AI, and 4K/8K streaming. IPTEC serves banks, embassies, oil and gas firms, NGOs, UN agencies, and other enterprises, making it a key player in the country's fiber optic deployment.

Market Overview The South Sudan fiber optic market is emerging, with ongoing investments aimed at improving internet penetration, which was only 12.1% at the start of 2024. The government and regulatory body, the National Communications Authority (NCA), are actively supporting projects to expand fiber networks and digital infrastructure. While there is no evidence of domestic optical cable manufacturing, international suppliers and regional subsidiaries like Bayobab are responsible for de...
